

JOB VACANCY - PROJECT ENGINEER / RESEARCH ENGINEER

Job purpose: Axion is looking for a Project Engineer to deliver a wide array of projects and infrastructure upgrades across all five of the S Norton group's sites.

Location: Trafford Park, with some travel required to other sites.

Working hours: 37.5 per week, 08:00 – 16:00

Principal Accountabilities:

- Provide project engineering support to aid with the execution of capital projects and improvement projects, from conception to completion
- Projects ranging from £1000+ (small projects) to £10m+ (major Capex projects)
- Site supervision and management duties, including managing contractors and ensuring relevant HSEQ systems and site management systems are adhered to
- Collaborating with the site operations and maintenance teams to co-ordinate installation works to minimise downtime and disruption
- Purchasing and procurement using CMMS
- Compiling and maintaining comprehensive records and documents for projects
- Preparing and reviewing technical documentation such as equipment specifications, quotations, drawings, procedures etc
- Involvement in design reviews, HAZOPs, Risk Assessment reviews etc
- Any other reasonable tasks

Knowledge and experience:

- Engineering degree (Mechanical, Chemical or Process Engineering preferred)
- 1 -2 years industrial experience preferred but will consider graduates
- Experience of Microsoft Office, particularly Word and Excel
- Full, clean driving license and own transport preferred but not essential
- Positive can-do attitude
- Self motivated
- Well organised
