

## JOB VACANCY - PROJECT ENGINEER

**Job purpose:** Axion is looking for a proactive and self-motivated Project Engineer to support the Engineering Lead and help deliver a wide array of projects and infrastructure upgrades across all five of the group's sites.

**Location:** Trafford Park, Manchester; with some travel to other sites

**Job type:** Full time, permanent

**Working hours:** 37.5 per week Monday - Friday

### Main duties:

- Provide project engineering support to aid with execution of capital projects and improvement projects, from conception to completion
- Projects ranging in value up to £1000+ (small projects) to £10m+ (major capex projects)
- Site supervision and management duties, including managing contractors and ensuring relevant HSEQ systems and site management systems are adhered to
- Collaborating with the site operations and maintenance teams to co-ordinate installation works to minimise downtime and disruption
- Purchasing and procurement using CMMS
- Compiling and maintaining comprehensive records and documents for projects
- Preparing and reviewing technical documentation such as equipment specification, quotations, drawings, procedures etc
- Involvement in design reviews, HAZOPs, risk assessment reviews etc
- Any other reasonable tasks

### Knowledge and experience:

- Engineering degree (mechanical, chemical or process engineering preferred)
- 2+ years industrial experience
- Experience of Microsoft Office, particularly Word and Excel
- Positive can-do attitude
- Self motivated
- Well organised and works well under pressure
